

Why Customers Choose

TITANGPS

01 | Stop Vehicle & Equipment Theft

GPS tracking devices used with equipment and other mobile assets dissuade thieves. Statistically, January has the highest equipment thefts from unattended job sites and recent chip shortages correlate with increased theft.

02 | Monitor Driver Safety

Drivers who are aware that their activities are tracked and monitored avoid risks. You are alerted when one is speeding, taking long routes, or driving unsafely. Monitor and avoid being the 20% of fleet vehicles involved in some form of crash.

03 | Save Fuel and Time

Pinpoint the most efficient routes and get alerts for excessive idling or personal use in your fleet. Lower fuel consumption by up to 40% with visibility on jack-rabbit starts and hard braking that you can track and reduce.

04 | Boost Productivity

GPS tracking devices alert you when employees arrive and depart from worksites. Invoice customers accurately for hours of equipment use. Companies see 5-20% productivity gains almost immediately upon deploying Titan GPS.

05 | Reduce Downtime

Reduce expenses and costly breakdowns with timely service and maintenance reporting. Visibility on equipment usage increases their lifespan. Improve gas mileage by 10% simply by knowing when to replace a dirty air filter.
